

When you're thinking about
robot-assisted surgery, how many
hospitals should you consider?

One.

Bridgeport Hospital physicians have performed more than 800 minimally invasive robot-assisted surgeries, more than any other hospital in Fairfield County*. And robotics is just one of the many sophisticated technologies utilized by Bridgeport Hospital surgeons, who represent 12 surgical subspecialties. Patients throughout the region repeatedly seek out our highly credentialed experts for life-changing procedures. **Now that's Caring for Your Life.**
